HOW MUCH OF THE RESIDENCY EXPERIENCE CAN ARTISTS WITH LIMITED MOBILITY PARTICIPATE?

This residency is built with very little structure. Welcome presentations are located in a fully accessible space, meals are eaten, or picked up, at an accessible location. We have multiple studios that are on the ground floor with ada compliant restrooms. One house has a studio located inside the home for a person who is limited in motion. Another residence is completely wheelchair accessible with all necessities on the ground floor. Both the woodshop and metal shop are ramp accessible. We are able to provide shuttles through the neighborhood if it is needed.

PLEASE BRIEFLY DESCRIBE THE FACILITIES AND AREAS OF THE CAMPUS THAT ARE NOT ACCESSIBLE.

The second floors of the renovated historical buildings do not have lift access at this point. This would hinder studio visits for a person with mobility limitations. This is also a challenge during the winter months when sidewalk care is limited.
